Fidelity Engineering Corporation Announces Promotion of Keith Klann to Vice President – New Company Integration & Technologies

Promotion is part of Fidelity's efforts to expand, grow company acquisitions

BALTIMORE (January 22, 2018) – In an effort to further solidify its growth strategy through strategic acquisitions and integrations, [Fidelity Engineering Corporation](#) announces today the promotion of Keith Klann to **Vice President – New Company Integration & Technologies**.

Fidelity Engineering Corporation is a premier provider of high performance building solutions in the Mid-Atlantic region. It has acquired a number of companies that have allowed the organization to expand its product and service offerings, including HVAC mechanical systems, building automation/integration and emergency generators. Today, the Fidelity family of companies includes over 750 employees.

In this role, Klann will continue to establish and oversee the front and back office technologies for Fidelity's Service Initiative, which is to offer an unparalleled and world-class service experience for clients, as well as improve customer service efficiencies. Klann will now also oversee all new company integration efforts as part of Fidelity's new acquisitions.

"Fidelity Engineering Corporation is committed to increasing its presence and services throughout the region and we're doing that by strategically growing our portfolio of acquisitions," says Dave Lanphar, CEO/Partner of Fidelity Engineering Corporation. "To seamlessly integrate these new companies into our organization, and more importantly enhance them, we're putting together the most highly-skilled and knowledgeable team. We're excited to have Keith, along with his level of experience, spearhead these efforts."

Klann's experience in the technology field spans nearly 25 years. Prior to joining Fidelity, Klann served as a Senior Consultant for WennSoft, which is based in New Berlin, Wisconsin.

Klann holds a Bachelor's Degree in Business & Computer Systems from the Milwaukee School of Engineering. An avid outdoorsman, Klann enjoys hunting, fishing and motorcycling, as well as spending time with his wife and three children.

About Fidelity Engineering Corporation

Fidelity Engineering Corporation is the premier provider of high performance building solutions in the Mid-Atlantic region. Its business is to create and maintain high-performance buildings by applying the latest in energy efficient mechanical systems, building automation and emergency power systems. Fidelity's experience spans more than 70 years and includes working with some of the nation's leading developers, property managers, critical facilities managers and Fortune 500 companies.
