Fidelity Engineering Announces Hiring of Mike Roppolo as Chief Corporate Development Officer

BALTIMORE, MD (November 19, 2018) – Fidelity Engineering announced today the hiring of Mike Roppolo as Chief Corporate Development Officer.

As the premier provider of high-performance building solutions in the Mid-Atlantic region, the Fidelity family of companies currently have over 750 employees. Roppolo will be responsible for helping Fidelity grow its brand and establish Fidelity as a national provider of integrated building services.

Roppolo has over 35 years of HVAC & Building Services business executive experience. Most recently, he was a Senior Vice President with ABM Industries and prior to that, Mike spent many years with The Linc Group and Honeywell Inc. where he has managed large organizations in the areas of Business Development, Operations, Joint Ventures, Mergers & Acquisitions, while also regularly leading complex organizational integrations.

“We are pleased to have such a talented Executive join the Fidelity Team,” said Dave Lanphar, Fidelity Engineering CEO/Partner. “We are confident in Mike’s ability to ensure that we successfully execute our aggressive yet strategic expansion plans.”

“I am very excited about the opportunity with Fidelity Engineering. Growing the company and having a targeted acquisition strategy will allow Fidelity to add complimentary capabilities to continue serving our clients,” said Mike Roppolo, Fidelity Engineering Chief Corporate Development Officer. “I have spent my entire career in our industry and appreciate the rich history and reputation of Fidelity, which I will utilize to build our brand nationally.”

Roppolo earned his Bachelor of Science degree from California Polytechnic University (Cal Poly) in Business Administration - Operations Management. During his career, Mike has also completed executive programs at Harvard Business School, USC and UCLA.

About Fidelity Engineering

Fidelity Engineering is the premier provider of high performance building solutions in the Mid-Atlantic region. Its business is to create and maintain high-performance buildings by applying the latest in energy efficient mechanical systems, building automation and emergency power systems. Fidelity’s experience spans more than 75 years and includes working with some of the nation’s leading developers, property managers, critical facilities managers and Fortune 500 companies.
